Noreen primarily operates in finance, IT and administration and also leads the Bodyproject Foundation activities.

Underpinned by a first class MBA in entrepreneurship from Liverpool University in 2006, her activities also extend into other key business areas.

She has extensive knowledge of legal and statutory accounts, commercial and management accounts, budgets, financial modelling, and best practice financial procedures and controls.

Noreen has held a number of senior financial positions across a variety of private and public sector organisations with turnovers ranging from £3 million to £65 million, including IT, Sport and Leisure, Retail, NHS, Education, and Environment.

Her operational experience in IT includes a wide range of system development and implementation activities and she has lectured business and finance students at CIMA and AAT levels.

Noreen was a finalist in the Sheila McKechnie Foundation Campaigner Awards 2008 for her work in raising awareness of BDD:

"for me this was about pride, making a difference and taking control in the face of the huge challenges and difficulties that BDD creates; we are immensely proud of the contribution the Bodyproject Foundation has made in funding NHS research into body image - it clearly demonstrates our philosophy that "actions speak louder than words"."
